Profile

Final-year B.E. Electronics and Communication Engineering student at KCG College of Technology with strong skills in programming and web development. Proficient in Java and experienced in building responsive, user friendly web pages using React.js. Possess a solid understanding of core ECE concepts with a strong interest in software development and front-end engineering. Seeking an opportunity to apply technical knowledge and problem-solving skills in a dynamic software development environment.

Experience

Front End Developer (Hybrid)

08/2025 – 09/2025

KnackForge Soft Solutions Private Limited

Chennai

- Developed a real-time chat application using React.js, Node.js, and socket.io, featuring Google authentication, dynamic user search, and seamless one-to-one messaging with efficient event-driven communication.
- Enhanced user engagement by integrating emoji reactions and GIF sharing (via GIPHY API), and implemented a responsive, modern UI optimized for smooth performance across devices.

Projects

Student Event Management System

06/2025 – 08/2025

Developed a web-based system using HTML, CSS, and JavaScript that allows students to register organizations, join events, and view admin-created announcements and publications through a responsive and user-friendly interface.

Key Features:

- Student registration and event participation
- Admin panel for events and announcements
- Dynamic updates with a clean, responsive design
